

# Product Specifications

## 1/2" Ground Rod Clamp

Part Number GR12  
Category Number 5570  
UPC 781002105008

Ground Rod Clamps are manufactured from high strength, highly conductive copper alloys that are suitable for direct burial in ground and concrete. They are intended to be used to connect copper wire to a copper ground rod or rebar and come assembled with a bronze hex head bolt.

### Physical Characteristics

Type	Ground Rod Clamp
Set Screw (in)	3/8"-16 x 3/4"
Copper Rod Size	1/2"
Rebar Size	#3
Rod Size	1/2"
Size	1/2"
Material	Copper Alloy
Conductor Material	Copper
Screw Material	Bronze

### Packaging Details

Standard Qty	50
Master Qty	250
Price Per	100
Package Length	3.70
Package Width	5.20
Package Height	4.80
Net Weight	0.1004
Package Weight	5.02

### Performance Data

Torque Rating	150 lb/in
Applications	Connects Bare Copper Wire to Copper Ground Rod or Rebar for Grounding and Bonding
Special Features	Suitable for Direct Burial in Ground or Concrete, Conforms To NEC Article 250
For Use With	Rebar & Copper Bonded Ground Rod
Environmental Conditions	Corrosive, Wet, Acidic

### Certifications

RoHS Compliant	No
Industry Standard	cULus Listed
